MICRO-LOAN BUSINESS PLAN DETAILS

IMPORTANT NOTE: All Micro-Loan applicants must complete a standard business loan application form. If you are starting a new business you may either provide a business plan for the new venture or complete this form.

BUSINESS DETAILS: We have seen many businesses both big and small succeed and fail for a variety of reasons. Along the way we have learned that there are some basic business details that all people should consider when going into business for themselves. This form is meant to ensure these “basic details” are addressed.

Starting a new business can hold many surprises. Everything can be a surprise if you have not thought about it or prepared for it. Sound business planning and having a contingency plan for potential events can help keep your business afloat. Most new businesses that fail did not plan-to-fail, they failed-to-plan.

Failing on paper is far cheaper and less stressful than failing in business. This is why we ask that you carefully consider and answer all questions on this form. This is your business blueprint. Be honest with yourself and set realistic sales expectations. This could make the difference between the success and failure of your proposed business.

MICRO-LOAN RISK: The information you provide us with in this application assists us in determining the risk involved in lending you money. Risk is based mostly on business management and earning potential. It is risk that we will consider when deciding upon your micro loan application. A Micro-Loan is a normal business loan that must be repaid to ensure we can loan the money again to other businesspeople in the Boundary area who need small loans quickly.
